12 July 1961

Dear John:

Enclosed is a progress report covering the period 4 November 1960 to 1 July 1961. I hope this proves of value in filling you in regarding our activities over the past several months.

Our responsibilities on the AR flight test program are such that it is mandatory that we get moving as rapidly as possible. As a consequence, I request that we receive approval for expending funds on flight test instrumentation as soon as possible. I have coordinated with both [REDACTED] and LAC and we are all in agreement on the approach and division of effort. Long lead times on major items and engineering development, however, make present material requisitions necessary.

Benz done
HP

Thank you again for the kindness shown during our recent visit.

Very truly yours,

Dick
